By Bouthaina Belayadi

About Me

My name is Bouthaina Belayadi and I am studying to become an Architect. I took this class to help me expand my knowledge on Adobe to hopefully use it for my future design projects. The typeface I used for this project is Helvetica Neue Bold and Avenir Next Condensed Ultra Light. I chose to cover all the cards with a light peachy cover with a dark purple lining and personally drawn pedals as the design.

DOGS LIFE

The background features a collage of overlapping, semi-transparent orange leaves of various shapes and sizes. A dark purple grid is overlaid on the entire image, consisting of horizontal and vertical lines that intersect to form a grid pattern.

Photoshop

For the raster project, I wanted to get creative with the project by exploring the mind of mans best friend, a dog. In the collage, I simplified it to a few main parts of a dogs life: a cat, lover, and ball.

Want a drink

The background features a light orange surface with a grid of thin purple lines. Scattered across the grid are numerous stylized, overlapping leaves in various shades of orange and peach. In the center, there is a solid brown rectangular box containing white text.

Illustrator

For the vector project, I was in the halloween spirit. As a result, I decided to draw a female villan. My inspiration came from Cruella de Vil's fashion sense and the errie feel of a graveyard. I really enjoyed this project and was very happy with the results!

The background features a light orange color with a pattern of stylized, overlapping orange leaves. A dark purple grid is overlaid on the entire image, consisting of horizontal and vertical lines that intersect to form a grid of squares.

ANIMATOR

In this animation project, I wanted to use my female villian from my vetor final project and have her destroy a town.I struggled alot with creating the little motions in her body and trying to match that with the correct sounds but overall I had alot of fun bring the character to life.
